Profile

As a Frontend Developer with one years of experience in building and maintaining user-friendly CRM applications. Proficient in frontend technologies. I have developed and maintained client-facing web applications using HTML, CSS, JavaScript and React Js. I have collaborated with design and back-end teams to ensure a seamless user experience and efficient data handling. I stay up-to-date with the latest front-end development trends and technologies and have a track record of delivering high-quality, user-friendly web applications.

Professional Experience

Front-End Developer, Kyros Technologies

2022 Feb – present
Chennai, India

- Collaborated closely with UI/UX designers and backend developers to translate design concepts into functional Customer Relationship Management features and components.
- Developed responsive and dynamic user interfaces using HTML, CSS, and JavaScript to enhance user interactions and streamline workflows.
- Utilized frontend frameworks, such as React, Vue.js, or Angular, to create scalable and maintainable CRM applications with a focus on modularity and code reusability.
- Conducted thorough testing and debugging to ensure high-quality, bug-free code and a seamless user experience across various browsers and devices.
- Participated in code reviews, providing valuable feedback to maintain coding standards and enhance overall application performance.
- Implemented user authentication and access control mechanisms, ensuring data security and privacy for CRM users.
- Collaborated with the QA team to identify and resolve frontend-related issues, resulting in improved application stability and user satisfaction.
- Successfully optimized the CRM application for mobile devices, resulting in a 80% increase in mobile user engagement and productivity.
